WINTER-TRIP «TOUR & PARAGLIDING»

Come with us on an interesting and unforgettable tour through Interlaken and the surrounding area with the innovative Segway!

Our tour begins at the City Hotel Oberland, crosses over the emerald green waters of the Aare River and into the picturesque old city of Unterseen, whose roots date back to the late 13th Century. We continue along the Lombach River, which arises from the western side of the Augstmatthorn, until we arrive at the well-known Neuhaus. Here, the Lombach flows into the Lake of Thun. At the Neuhaus we enjoy the spectacular view over the lake, which lies in the middle of the mountains.

As the tour continues we stop at the Ruine Weissenau, a former castle built at the edge of the lake. Our path back to Interlaken takes us to the Interlaken West train station, which we reach via a new crossing point of the Aare River. From here we return to the centre of Interlaken and the well-known Höhematte. This undeveloped piece of land in the centre of Interlaken is used for both sporting activities and agricultural purposes. We drive around the Höhematte and onto the former monastery area encompassing the Interlaken Castle and churches. To end the tour we visit the Japanese Gardens and return to our starting point after a total of 1.5 hours.

Here we start to the second highlight. Professional and tandem pilots with years of experience take you on an unforgettable paragliding flight. The Swiss Paragliding bus drives you to the starting point at Amisbüel. At almost 1400m, the take-off area, offers sensational mountain panoramas. After only a few steps, you and your tandem pilot take off together and fly effortlessly through the sky. Breathtaking views of the Lakes of Thun and Brienz, the Habkern valley with its romantic, karst landscapes, the Bödeli and the unsurpassed Alpine panorama of the Eiger, Mönch and Jungfrau mountain range specially characterise this flight. After approx. 20 minutes of flying, you and your pilot return to earth, where this unique combination tour ends after 2.75 hours.
